

Mezzanine I (Steel)

Events

1

Wooden floor

2

Balustrade consisting of stainless steel frames with safety glass

3

Creates extra space

The Product

The Mezzanine I is a versatile Neptunus deck system which provides a complete upper level of space, galleried sections or balconies.

Design

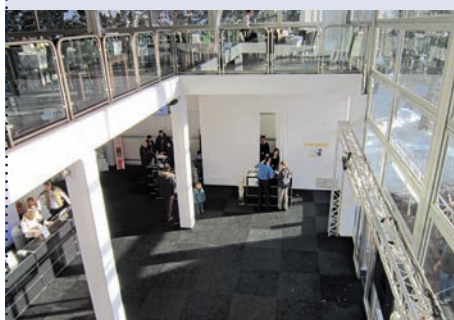

The Mezzanine I comprises a steel construction with steel beams and is finished with wooden floor. The height options are 3.5 or 4.6 metres finished floor level, in widths of 5, 7.5 or 10 metres. The length of the Mezzanine is limitless and can be extended in increments of 5 metres. The maximum loading on the Mezzanine floor is 350 kg per square metre, in accordance with BS EN13782.

Features

Adding an upper floor maximises the use of available space, creates extra room and provides elevated views. The Mezzanine I is compatible with the Evolution Products and some other Neptunus designs. Accessories include steel staircases and stainless steel balustrade frames with safety glass.

Applications

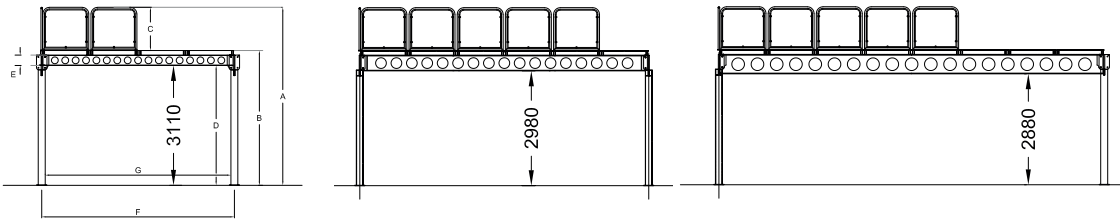

A mezzanine is an excellent solution for creating a VIP area, meeting area, restaurant, exhibition space or viewing area. The Mezzanine I can be fitted out to suit your requirements.
